

BUILDING SAINTS FOREVER

All Saints Catholic School Building Campaign Newsletter, Summer 2009

\$1,510,681
Raised to Date

We are building!

Construction of our new facility began in February 2009. Our first phase includes a large commons area, reception and administration offices, seven completed elementary classrooms, and two shelled classrooms. By May, the metal superstructure was complete!

Donate TODAY! 100% Matching-donor Event!

An unprecedented gift of \$500,000 has been earmarked by an anonymous donor to match all new contributions through December 31, 2009. In simple but profound terms, this means that all new pledges and contributions made today are instantly doubled!

Just think...

In order to build a new facility to meet the immediate needs of a growing school, we've prepared to take on long-term debt by securing an option to borrow up to a million dollars. This Matching-donor Event is an extraordinary opportunity to significantly reduce our need to borrow, which will save hundreds of thousands of dollars in interest payments that could be used to develop additional facilities, to increase tuition assistance, to raise our teachers' salaries, and to reduce annual tuition costs.

"Start your shovels!"
